

# Conversational Flow for AI Assistant: Nursing College Admission Guide

## Introduction:

This document outlines a conversational flow designed for an AI assistant that guides prospective students through the admission process for a B.Sc Nursing College. The assistant handles user inputs intelligently, responds to both positive and negative intent, and provides structured, human-like assistance in a friendly Hindi-English tone.

## Step-by-Step Conversation Flow:

Step	Bot Message	Positive User Response	Negative User Response	Bot Follow-Up
